DETAILED ACTION

Response to Amendment

1. Applicant's amendment filed on January 6, 2006 has been entered. Claims 1, 3, 5, 6, 11 and 15 have been amended. No claim has been cancelled, or added. Claims 1-15 are still pending in this application, with claims 1, 6 and 11 being independent.

Allowable Subject Matter

2. Claims 1-15 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Applicant teaches an illumination system including a base having a channel and a mount surface, a pair of flanges attached to opposing side of the channel, and a lens inserted into the channel between the flanges. The base has a first hardness, which is more than the second hardness and third hardness of the flanges and lens, respectively.

Hoffmann (U.S. Pat. 6,523,986) and **Marcus** (U.S. Pat. 6,074,074) disclose lighting strips including a base having a channel and a mount surface, a pair of flanges attached to opposing side of the channel, and a lens inserted into the channel between the flanges. However, the cited references fail to individually disclose, or suggest when

combined, the base and the flanges/lens having different hardness, with the base hardness being the highest of the three.

No prior art was found teaching individually, or suggesting in combination, all of the features of the applicants' invention, specifically the base having a different hardness than the flanges and lens, such base hardness being the highest of the three, in combination with the recited structural limitations of the claimed invention.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
